

# Healthy Cities Network

## Thematic Webinars

### The role of art in health and well-being

Date: Tuesday 4 June 2024 – 14:00-15:30 CET

*Arts can play an important role in the promotion of health and well-being as well as the treatment of illness across the lifespan - This was the result of a scoping review published in 2019 by WHO/Europe which has kicked-off an increased awareness across the region on the impact arts and culture can have on health and well-being.*

Cities and National Networks can further the beneficial impact through promoting arts engagement at the individual, local and national levels and supporting cross-sectoral collaboration.

This webinar will focus on sharing good practice examples from our newly re-designated Collaborating Centre for Healthy Urban Environments as well as from members across the network.

**We want to learn from you!** Please send an email to [eurohealthycities@who.int](mailto:eurohealthycities@who.int) if you would like to give a 5-minute presentation during the webinar on a project in your community.

#### Speakers:

- Associate Professor Michael Buser (WHO CC – UWE Bristol)
- Nils Fietjs (WHO EURO)
- Associate Professor Nicola Holt (UWE Bristol)
- Members of the European Healthy Cities Network
